EDUCATION:

Lighthouse Labs Web Development Bootcamp

July - October 2021

- Undergone an intensive 12 week session at the Lighthouse Labs Bootcamp. The experience helped me form a deeper understanding of JavaScript by using it to complete daily challenges and assignments.
- Collaborated with many of my classmates for pair programming and projects. Lighthouse Labs emphasized the importance of teamwork and comradery in a programming environment.

SKILLS:

- **Frontend:** React, JQuery, HTML, CSS, EJS
- **Backend:** NodeJS, ExpressJS, Ruby on Rails
- **Database:** PostgreSQL

EMPLOYMENT HISTORY:

Grocery Deliverer

November 2021 - Current

- Pack and deliver groceries to residence in the Atkinson Co-op
- Cleaning responsibilities within the community centre
- Contribute to daily planning and organizing packages

Camp Counsellor

June - August 2019/2020

- Lead and participated in recreational activities
- Facilitated campers ages 5 -12
- Attended field trips twice a week

PROJECTS:

Neighbourhood Watch | [yislamovic/hood-watch: project final](#)

- A website made to promote safety and positivity in communities located in Toronto
- Users can report any events currently going on in their respective communities
- Implemented the Mapbox API for geographic representations of reports
-

Jungle Rails | [aphy18/Jungle-Rails-LHL](#)

- A buying/selling website made from Ruby on Rails
- Users can view details for each product and add it to their cart

EXTRACURRICULARS AND ACHIEVEMENTS:

- Contributed to building a startup company in the Junior Achievement Program with other students, which led us to win Best Brand of the Year.
- Travelled to different provinces in Canada for Tim Hortons Camp, and completed their 5 year camper program.
- Obtained the “Investing in Our Diversity” and the “Co-operative Housing Federation of Toronto” Scholarships
